

Electrical Designer / Drafter

About Ikonika Corporation

We are a full-service control system integrator delivering complex automation solutions. We have comprehensive in-house capabilities through the full project lifecycle, including design, programming, panel manufacture, commissioning and in service support, all from our Fife, WA facility.

The origins of our business and the foundation of our expertise is in marine controls and automation, across the full scope of vessel systems. From this beginning, we have developed to become recognized throughout the international fishing industry as the go-to control systems team for seafood processing, in vessel and shore-based factories. This process control expertise is leading to projects across the food and beverage sector, including bottling facilities with a focus on high-availability equipment updates.

About the role

The Electrical Designer will join our existing team of engineers in support of business growth and be responsible for supporting new automation control system design.

Your accountabilities will include;

- Creation of system and panel drawings, using EPLAN
- New system and panel design, using common OEM software
- Answer questions from shop, layout, or field personnel.

About you

You will see from the below that we are open minded about how you arrived where you are, but you need to be a meticulous, hard-working, collaborative soul with real electrical engineering expertise, looking to put your weight into developing Ikonika Corporation with us!

Essential Qualifications and experience

- Expertise in EPLAN Pro Panel and EPLAN Electric P8
- Practical experience as an electrical drafter, typically 3 years or more
- Strong interpersonal skills and a collaborative style

Desired Qualifications and Experience

- Practical experience as an electrical engineer
- Bachelor's degree in electrical engineering

- Experience in Marine / Maritime electrical engineering
- Experience in food manufacturing, including the fish processing industry
- Experience in process manufacturing, including food and beverage
- Experience in power management

Salary & Benefits

Competitive Salary package includes Medical Benefits, Paid Holidays, Paid time off, 401K, Bonus.

Location

Based in our Fife, WA headquarters or remote from any location, Pacific USA working hours.
